

Software QA Engineer Intern – Boston MA

As a Veson Nautical intern you will help improve our quality assurance processes and tools. You may be working on our automated test harness, test result reporting, build and release management systems, or issue tracking processes. You will complete at least one project from start to finish that includes design, development, verification, and documentation of your solution to a quality assurance related challenge.

Requirements

- At least 2.5 months of availability
- Basic familiarity with object oriented programming languages (C#, Java, or comparable)
- Familiarity with a scripting language a plus (Python, Perl, Ruby, etc.)
- Relational database knowledge (SQL Server)
- Strong written and oral communication skills
- Desire to work in a fast-paced, entrepreneurial setting
- Excellent grades
- Ability to troubleshoot complex problems
- Proactive, positive approach to work
- Reliability and diligence
- Legal right to work in U.S.
