

Trading Consultant – Boston, MA

As a Veson Nautical Trading Consultant, you will function as a Trading expert throughout the sales, implementation, and deployment phases of the world's leading enterprise software solution for maritime commercial operations. You will provide pre-sales support, deliver product demos, author proposals, and quickly map customer processes to product capabilities. Your responsibilities will extend throughout the project lifecycle for any Trading related projects—understanding customer's needs, gathering requirements, tracking features, and facilitating communications. You will serve as a go-to resource for trading, financials and risk management knowledge. You will assist in coordinating and prioritizing client development requests concerning freight trading and risk management. You assist in providing customized training and ongoing support to end-users, IT, and management to ensure successful system adoption. You will work closely with the Veson Nautical product team to define and verify customizations, and to support successful enterprise software implementations.

About Veson Nautical

www.veson.com

Veson Nautical, a U.S.-based maritime software solutions provider, delivers technologically advanced, easy to use, highly graphical software applications to maritime commerce organizations throughout the world. These proven solutions allow users to manage and share information efficiently across Chartering, Operations, Trading, and Accounting departments, streamlining workflow, cutting costs, and optimizing profits.
